700+
customers worldwide

5 countries
Germany, USA, Australia, New Zealand, Poland

ISO/IEC 27001:2022
plus ISO 9001:2015 and ISO 14001:2015

WHY ISEC7

Others sell a platform. We make sure it works in regulated day-to-day operations.

ISEC7 plans, runs and supports the platforms behind mobile work: unified endpoint management, endpoint security, encrypted communication and the device lifecycle.

You get one partner for the whole stack. We build our own software, operate customer environments from Germany and work with the vendors whose platforms you already use.

SECTORS WE SERVE

- Government
- Law Enforcement
- Healthcare
- Armed Forces, Defence
- Critical Infrastructure
- Enterprises

PARTNERS

- Apple: member of the Apple Consultants Network
- Samsung: Knox Premium MSP Partner
